

K-LOVE serves us in the Anchorage market. Many of us would be very disappointed and lose a valuable resource should it be displaced by an LPFM broadcaster providing other programming. The service provided by K-LOVE is very important to our market which is so isolated from the continental states. It keeps us in touch with God in a positive way by soothing high emotions when driving and comforting us in the challenges of every day living. Please consider these comments when determining the priority of LPFM over current FM translator service.
